PK**

 **CATHILD INDUSTRIES**

## PRE-DRYER PK

### 1 REPLACES THE WOOD YARD

**Accelerate air-drying**  
without depending on weather conditions

### 2 NO STORAGE-RELATED DEFECTS

**Protect your wood** from cracks and discoloration  
caused by improper storage

### 3 CONSISTENT QUALITY

Achieve **flawless drying** with reliable,  
uniform results

### 4 IMMEDIATE AVAILABILITY

**Quickly supply dry wood** from pre-dried stock

### 5 HOMOGENEOUS DRYING

Bring your wood to **uniform moisture content**

### 6 SAWING IN ALL SEASONS

Saw your hardwoods **all year** round by bringing  
them immediately into the pre-dryer

## 10 REASONS TO CHOOSE THE CATHILD PRE-DRYER

### 7 MULTIZONE MANAGEMENT

Dry **different species** and thicknesses  
simultaneously with the **multizone application**

### 8 REDUCTION OF DRIED WOOD STOCKS

**Lower** your tied-up capital

### 9 INCREASED PRODUCTION

**Multiply** your existing kiln capacity by 3

### 10 IMPROVED BOILER EFFICIENCY

**Optimize the operating factor**  
with a linear load

### Choose the CATHILD pre-dryer

A must-have product when the quality and homogeneity  
of the final moisture content of wood are paramount.  
It's the benchmark for sawmills, flooring manufacturers,  
joinery and furniture
